

UNLOCK THE POWER OF DATA TO RESHAPE HEALTH AND SOCIAL CARE

MICROSOFT DATA ESSENTIALS
LEVEL 3 APPRENTICESHIP WITH INCLUSIVE
MICROSOFT EXCEL CERTIFICATION

ADVANCE DIGITAL INNOVATION ACROSS THE NHS WITH ESSENTIAL DATA SKILLS

Digital transformation can reduce the costs and improve the outcomes of healthcare delivery. But, only with the right talent.

The Microsoft Data Essentials Level 3 apprenticeship programme adds Microsoft Excel certification and Power BI expertise to help learners develop the digital skill sets needed to drive data-driven innovation.

Alongside online learning, work-based elements are completed over the course of the apprenticeship to apply new knowledge, utilising Power BI data visualisation platforms, to real projects. Essential data skills such as collating, analysing and organising data with Excel will support NHS objectives like harnessing data to improve patient and service user safety and provide enhanced digital services to patients.

Take tech further in the NHS

Overcome barriers to digital transformation by developing NHS staff with the hard and soft skills to translate data challenges into digital solutions.

Power your potential, faster

Our digital learning programmes support the learner to be more successful in their assessment and at their workplaces and to stay engaged throughout their apprenticeship.

Simple procurement

It couldn't be easier to procure apprenticeships with QA. QA is on all the NHS primary procurement Apprenticeship routes including, NHS Crown Commercial Service DMP, NHS Shared Business Services and NHS Salisbury procurement framework.

QA has been a long standing partner to the NHS. The Data Apprenticeship Programmes developed by QA support our need to empower our staff to operate effectively in the digital first environment.

Work Based Learning
Coordinator, Apprenticeship
Lead, Mersey Care NHS
Foundation Trust

QA has been a **provider of Apprenticeship talent** into leading NHS organisations for over 10 years in over 20+ NHS departments.

A fully funded programme designed to transform your talent and workplace

Microsoft Data Essentials

Level 3 Apprenticeship

The Microsoft Data Essentials Level 3 apprenticeship works with all levels of staff and job roles throughout the NHS. The programme will transform practical skills to enhance your capability, inform better decision making, and set a platform for all NHS staff to be better data citizens.

Fully funded through your NHS Trust or NHS organisations' apprenticeship levy.

Upskill, Reskill or Recruit – Train your teams or recruit new talent in essential data skills – and progress them through lifelong capability.

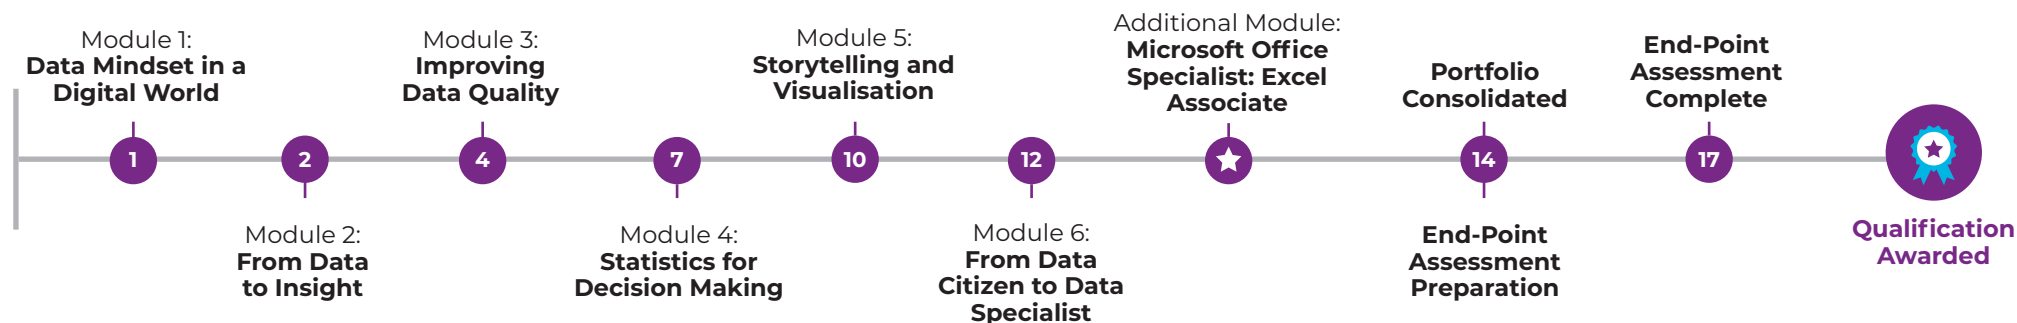

We are committed to recruiting incredible talent from diverse backgrounds through our market leading links with social mobility talent partners. QA supports Microsoft's Get On campaign to create 1.5 million tech careers by 2025.

This programme is suitable for multiple departments and job roles across the NHS including:

- Administration & Data Assistant
- HR Workforce Assistant
