Beat the digital skills gap

QA has teamed up with Microsoft to support its Get On campaign committed to helping 1.5 million people build careers in technology and 300,000 connect to tech job opportunities.

Our fully funded apprenticeship and degree apprenticeship programmes build technical talent in areas including data analytics, cloud computing and IT – **embedding Microsoft content** and qualifications to develop in-demand skill sets to drive the NHS forward.

We **recruit, upskill or reskill people at all levels** from essential digital front-line roles to senior digital business leadership.

See an immediate impact in your organisation as learners across our **Data Analyst including PowerBI, Microsoft Data Essentials** and **Microsoft Azure Cloud Support Specialist** apprenticeships – and **BSc (Hons) Digital and Technology Solutions Degree Apprenticeship** – engage in workplace learning.

Take advantage of your Apprenticeship Levy to turn NHS digital objectives into digital wins.

As a leading Microsoft Gold Partner, QA is embedding Microsoft learning content in their apprenticeships and degree apprenticeships.

They are supporting our Get On skills campaign and have a forward-thinking approach to delivery that aligns with Microsoft's ambitious vision for apprenticeships.

Simon Lambert, Chief Learning Officer, Microsoft UK

Improve digital capabilities with the #1 apprenticeships provider*

Microsoft Gold Partner

QA is the largest provider of Microsoft Certified Apprenticeship programmes in the UK.

On-demand professional development

Cloud Academy offers learners 10,000+ hours of additional online learning content, including Agile Development, Big Data, Cyber Security, Cloud, DevOps, Project Management and more.

Simple procurement

QA is on all the NHS primary procurement apprenticeship routes, including NHS Crown Commercial Service DMP, NHS Shared Business Services and NHS Salisbury procurement framework.

69% of UK leaders believe their organisation has a digital skills gap.** We're here to close the gap.
