TRANSFORM YOUR IT DEPARTMENT

MICROSOFT AZURE CLOUD SUPPORT SPECIALIST
SCQF 6 MODERN APPRENTICESHIP

Equip your IT department with essential Microsoft Azure Cloud skills.

52%* of all cloud services roles in Scotland are looking for an Azure skillset, making Azure one of the most sought-after skills in the market.

Enhance the technical expertise of your helpdesk teams

QA's digital apprenticeships can help you access, recruit and onboard diverse new junior talent, and equip your team with the knowledge and skills to support on-premise and cloud based technologies.

We follow a cloud-first curriculum

This programme follows a Cloud first curriculum, developed in partnership with Microsoft to support their Get On campaign to help more people start careers in tech.

We deliver 80% of IT SCQF 6 programmes in Scotland

The technical content in this programme gives learners an introduction to Windows Client, Microsoft Azure and core networking technologies.

A widely recognised certification

Learners will gain the highly regarded Azure Fundamentals certification.

A funded programme designed to transform your talent and workplace

Microsoft Azure Cloud Support Specialist SCQF 6 Modern Apprenticeship

Microsoft Partner

Our Microsoft Azure Cloud Support Specialist SCQF 6 Modern Apprenticeship will build the skills and capabilities needed throughout your organisation to analyse, interrogate and present technical data, providing informed and valuable business insights to a range of stakeholders.

Skills Development Scotland (SDS) provides funding through QA, which allows us to support the learning journey.

Recruit and harness a new talent pathway - QA can help you cost-effectively recruit diverse, ambitious talent into your business and help you build a pipeline of data literacy talent.

Let QA support you in recruiting incredible talent from diverse backgrounds, through our market leading links with social mobility talent partners. QA All In; our market defining recruitment network; supporting Microsoft's Get On campaign to create over 1.5m technology careers by 2025.

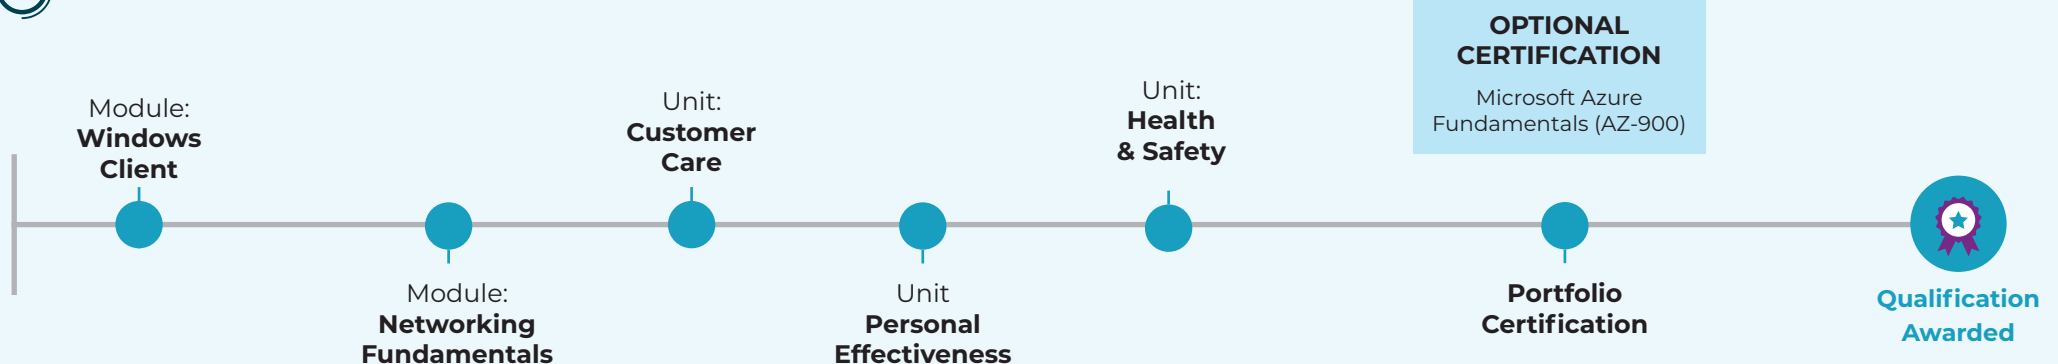

This programme is suitable for roles including:

- Desktop Support Engineer
- First and Second Line Helpdesk Support
- Technical Support Analyst
- Infrastructure Technician

Microsoft content is at the heart of all our data needs; this programme is enhanced with official Microsoft content and accreditation in technologies including Microsoft Azure and Windows client.

PROGRAMME DURATION: 12 Months
